

Nasıl Oynanır?

1'den 5'e kadar olan rakamları bulup boyamaya çalışıyoruz. Bunları yaparken aşağıdaki kurallara uyuyoruz.

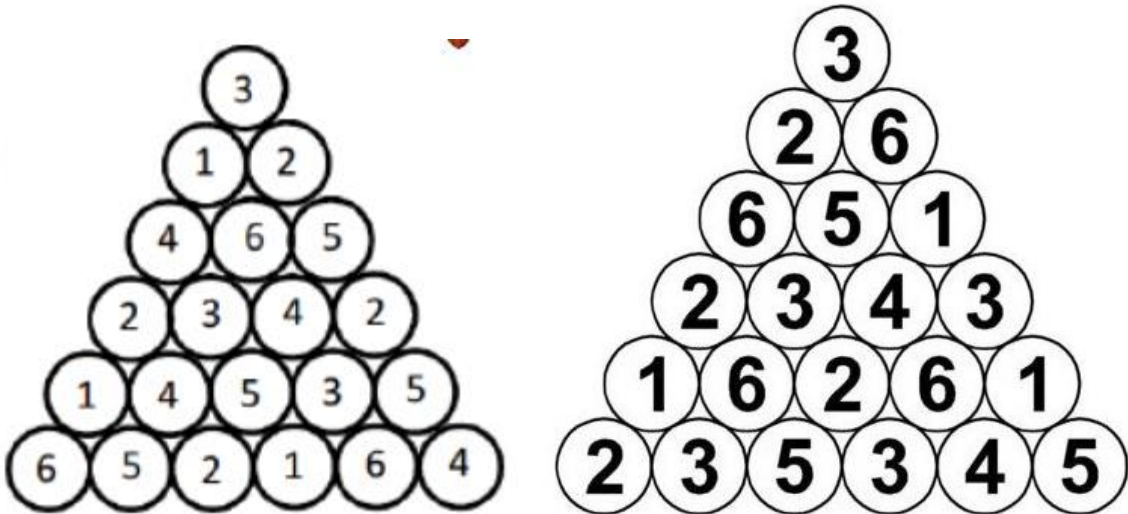

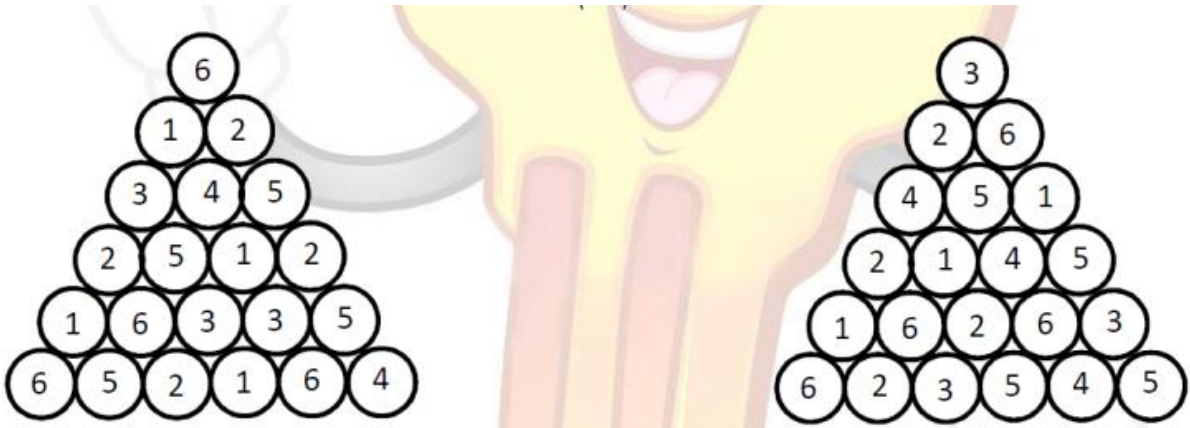

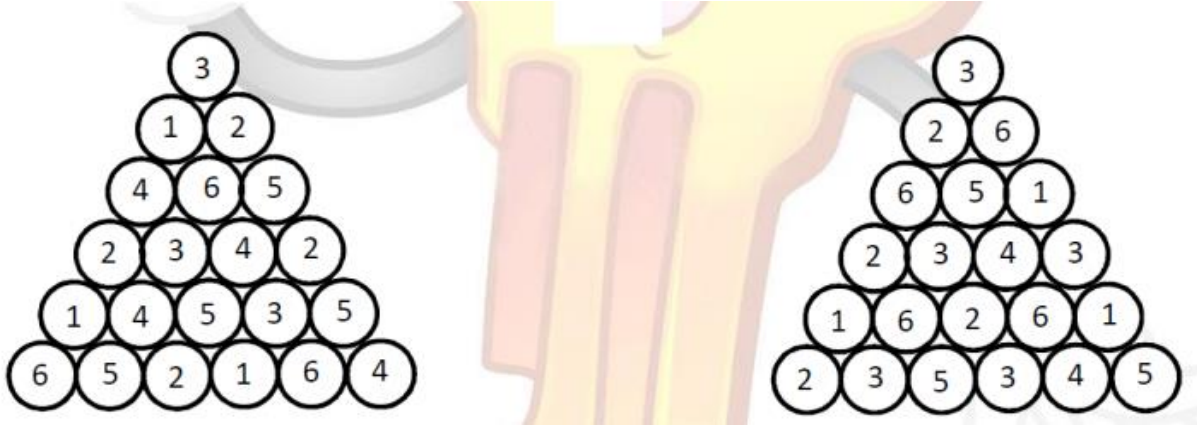

En üst basamaktan başlayarak her satırdan sadece bir rakam boyayarak en alt basamağa kadar iniyoruz. Her basamaktan sadece bir rakam boyayabiliyoruz. Ve boyadığımız bu rakamın altındaki 2 daireden birini seçerek aşağı basamaklara kadar iniyoruz.

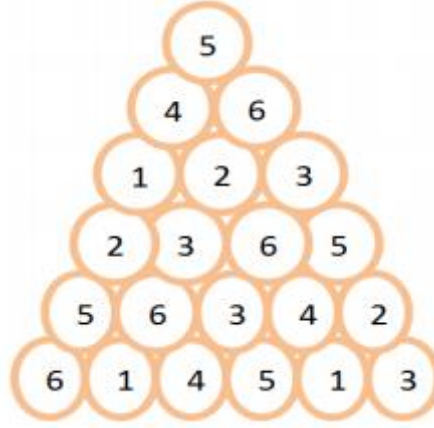

Not: Eğer 6 basamak varsa 1'den 6'ya kadar olan rakamları; 7 basamak varsa 1'den 7'ye kadar olan rakamları yukarıdaki kurallar doğrultusunda ilerleyerek boyuyoruz.
